Lr.No. AME-1 (Mgr-IT)/Vemas (01)/2013-IT

Circular No.   02 /2013-IT DT. 23.01.2013.

Sub:-DCP-VEMAS - MTD-68A SOFT COPY - Computerization of Vehicle Transfer form MTD - 68A i.e., Transfer of vehicle from Depot to Depot / Work shop through soft copy - Implementation of Program – Reg.

At present vehicles are being transferred from one depot to other depot/work shop, duly deleting the vehicle, units from their Computer Masters files in the parent depot and the data is again fed manually at the vehicle receiving depot. It is observed that the data pertaining to vehicle, tyres and units are not entered properly at vehicle receipt depot by the concerned persons, resulting of wrong information in the reports. Hence it is decided to develop a program to generate a soft copy of data whenever vehicles are transferred from depot to depot / workshop / scrapyard.

Accordingly, Computers department has developed a program for transfer of vehicle from one depot other depot / workshop through softcopy. The program will generate the following "dat" files and reports whenever a vehicle is transferred. The procedure for implementation of this program is given in the file named "modification.vemas" which is available in "RTCWAN" under /DCP/TPTOBJ/vemas directory. This program is already implemented at Jagayyapet Depot.

Program generated reports :-

1. MTD68A – Form (<VEH.NO>mtd68a.rpt)
2. Tyre History cards (btyrhis.rpt)
3. Units History cards   (unit<VEH.NO>.rpt)
4. MTD 68b-Tyres transfer statement. (b68stmt.rpt)
5. Engine Mileage card. (M<VEH.NO>.rpt)

Program generated softcopies which are to sent along with vehicle by pendrive / "RTCWAN":

1. <depotcode>v68a<VEH.NO>.dat (vehicle data)
2. <depotcode>b68a<VEH.NO>.dat (Engine, body, chassis data))
3. <depotcode>t68a<VEH.NO>.dat (Tyres data)
4. <depotcode>h68a<VEH.NO>.dat (Tyres history data)
5. <depotcode>e68a<VEH.NO>.dat (Engine mileage card data)
6. <depotcode>u68a<VEH.NO>.isf (units data)
7. <depotcode>p68a<VEH.NO>.dat (Preventive maintenance data)

Hence all the Regional Managers are advised to give necessary instructions to the Depot Managers to implement the above software, as the program reduces the manual work besides avoiding the wrong data entry .
