

ANDHRA PRADESH STATE ROAD TRANSPORT CORPORATION

No. ATM-II(M-IT)/UTS/VTS(01)/1/2023

O/o The VC & MD,
18-10-2023, Vijayawada.

To,
**The District Public Transport Officers,
APSRTC.**

SUB: Vehicle Tracking – SOP to be followed for tracking of regular and special OPRS services during Dasara special operations – Reg.

With reference to the subject, this is to inform that corporation has planned to operate 5000 special services approximately in addition to the regular services to clear the Dasara festival traffic. In this regard, the tracking of OPRS services is crucial both for passengers and corporation. In order to achieve 100% tracking of the OPRS services the below given SOP has to be followed.

- Ensure that Offline TIMs are not issued to the OPRS Regular and Special services.
- Ensure that the services are operated with the ePoS devices having GPS status and Location Permission "ON" only without fail.
- In case if the necessity arises to utilise an ePoS for which the GPS status and Location Permission are not "ON"

➤ Inform the below given mobile numbers of EBIX team to turn the status to "ON".

Then only provide that ePoS to the service.

1. Eshwar – 7095777701,
2. Anil – 9398121897.

- Instruct the crew to "NOT TO TURN OFF" the mobile data in the ePoS devices while operating the services.
- Ensure to dispatch the ePoS devices with "FULL CHARGE" (100%).
- Issue the "CHARGERS" to all the special services along with the ePoS devices.
- Instruct the crew to charge the ePoS devices at en-route bus stations or end points only.

You are therefore requested to advise the Depot Managers under your jurisdiction to ensure the above SOP for achieving 100% tracking of vehicles in view of the Dasara special operations.

With best wishes for Dasara special operations
