- Reg.

Ref : 1. V C & M D lr. no. even dated 12.7.2012 addressed to ED(GHZ&HZ).  
2. ED(E&IT) lr. no. even dated 17.11.2012 and 5.1.2013  
addressed to ED(GHZ&HZ).

-oOo-

As per instructions of VC&MD 'web enabled' software to capture all the MTD-141s data into computer system and generate the flow charts of each and every service operated by the Corporation was completed, tested and implemented successfully.

It was requested to complete the updation of all MTD-141s data into website in 'apsrtcinfo.com' and submit the compliance certificate to the undersigned but yet the same is not yet received from most of the units and Regional Managers.

Utilizing the data available in the 'apsrtcinfo.com' the stages of all the Greater Hyderabad Zone operated services were codified along with the Divisional Core Group member of Secunderabad. The origin point, destination point flows including the intermediate point flow can be generated utilizing the software kept in website. As on date the processed data is about more than 75 lakh records.

The software now has to be verified for correctness, and in case of any additions deletions and modifications, the same can be informed to Dy.CME(SM-IT) office for carrying out the same.

At present the web enabled data of GHZ depots is kept in the url "162.88.99.66/rtc/distflow/ghznflow/cindex.php" instead of 'apsrtcinfo.com', for testing and certification from the Unit Officers.

Therefore, you are requested to instruct the Regional Managers, Dy.CTM(Schedule), DVMs and Depot Managers of GHZ to take necessary action to get the data verified by the concerned regarding the correctness including the timings, Stage Names etc., and send compliance to undersigned's office, for taking further necessary action, by 10 May 2013, and also to generate additional reports as instructed by VC & MD earlier.

MATTER MAY BE TREATED AS MOST IMPORTANT PLEASE.

EXECUTIVE DIRECTOR (E & IT) 26/4
