All Regional Managers,
A P S R T C.

Sub:- HSD OIL BUNK PROBLEMS - Development of web based software to monitor HSD oil Bunk problems at Depots - Implementation of software - Reg.

During inspections of the depots, It is observed the oil bunk problems are unattended several days leading to HSD oil shortages and other problems. Depot Managers expressed that Bunk problems are not being rectified by oil companies in spite of lot of correspondence with them.

In order to overcome the oil bunk problems, IT Department has developed a web based software to monitor the depot wise oil bunk problems from head office and also by oil company representatives. The following is the procedure to implement the above software at the depots.

PROCEDURE AT DEPOT:

1. Login www.apsrtcinfo.com select "MED" tab and select "HSD OIL BUNK PROBLEM" tab and the following menu will be data entry screen.
2. DEPOT HSD OIL BUNK PROBLEMS DATA ENTRY - The Bunk problem details to be entered in the depot computer system.
3. DEPOT HSD OIL BUNK PROBLEMS UPDATION DETAILS DATA ENTRY - The details of work done by the Company Representative to be entered in the depot computer system after rectification of the problems.
4. Depot-wise and Vendor-wise HSD oil Bunk problem reports can be generated as and when required at Depot/Region/Zone/Head Office.
5. Individual Depot HSD oil Bunk problems for a period can be generated for analysis.

Hence, it is requested to instruct the Depot Managers to utilize the web based software at all the depots for feeding the oil bunk problems so as to review the same at Head Office level and early rectification by oil companies.

EXECUTIVE DIRECTOR (E&IT)
