SUB: OIL & GAS CONSERVATION FORTNIGHT:- Celebration of Oil & Gas Conservation Fortnight from 15.01.2013 to 31.01.2013- Instructions issued - Reg.

1. INTRODUCTION:

Consequent to the steep increase in crude oil prices in the recent past, the impact felt across the world has been severe. Our domestic crude production is unable to keep pace with high growth in demand of oil and gas resulting in heavy dependence (to the extent of 80%) on imports. Hence, a very high priority has been given by the Government of India for conservation of petroleum products so as to reduce ever-increasing gap between demand and indigenous supply and also to control the pollution.

In order to generate awareness among the masses about the urgency of conserving petroleum products, the Ministry of Petroleum and Natural Gas(MOP & NG), Government of India, has been directing to observe "OIL & GAS CONSERVATION FORTNIGHT (OGCF)" from 15th January to 31st January every year throughout the country. The slogan for this year is "SAVE FUEL YAANI SAVE MONEY".

During this OGCF, the entire oil industry and PCRA (Petroleum Conservation Research Association) under the guidance of MOP&NG undertake various kinds of activities to emphasize the need and importance of conservation of petroleum products & environment protection.

For more than 3 decades, APSRTC is vigorously implementing oil conservation measures by educating and motivating all our employees about the need for oil conservation. The success of our efforts is reflected in continuous improvements in HSD & LUB KMPL from year to year. Dedicated and committed involvement of Drivers, Mechanics, Supervisors and Managers to improve the fuel efficiency is the secret behind the success of our organization in oil conservation.
