Vide Circulars cited, instructions have been issued to ensure maintenance of the prescribed speed limits particularly for special type buses operating on long distance routes.

1. AC/Hi-tech/Luxury & Express services .. 75 KMPH operating to Mumbai, Bangalore.
2. All special type services operating .. 70 KMPH to any destination in other States.
3. All special type services operating .. 70 KMPH on long distance routes within State.

During a recent inspection of special type buses undertaken by HODs/SSOs at various points, it is observed that the recommended speed limits for most of the buses operating on long distance routes are not being adhered to. The speeds are locked at 60 to 65 kms., instead of 75/70 KMPH in many cases. The lower speeds result in late operation of services creating dissatisfaction amongst clientele. Journey time is the prime concern for long distance passengers. As a result of the poor quality of service rendered owing to low speeds, a major share of our market is shifting to private luxury coaches.

It is therefore directed to take action to ensure maintenance of recommended speeds for different types of services as per circular instructions.

Any deviation will be viewed seriously and the Officer/Supervisor concerned will be placed under suspension if any irregularity is noticed during the inspection of buses by special teams from 1st April, 2000 onwards.
