--000--

It is needless to mention that during peak hours on any day and during the peak season and on special occasions like jatharas and festivals, additional traffic demand will be generated at all places of the state and Corporation shall be ready to grab those specific opportunities to earn maximum revenues.

With the aim of realizing maximum revenues during peak days, the competent authority has accorded sanction to utilize the services of conductors and drivers (including contract employees) for operation of additional trips duly paying **Rs.2/- per KM** during the peak days. **This is not applicable for hire buses.**

In this connection, following guidelines are issued for making best use of the above opportunity to operate additional KMs on peak days to clear the traffic and thus earn additional earnings.

- 1) Identify the services (O.Ts, Spl.Offs) which are incoming early after completing the schedule and use them for operating additional trips to clear the traffic basing on demand.
- 2) Utilize the idle buses available in garages (especially long distance service buses).
- 3) Keep all the buses including spare in on-road condition and make best use of them for clearing the peak season traffic basing on demand.

All Regional Managers are advised to issue suitable instructions to the Depot Managers to operate more KMs during this peak season duly paying the **Rs.2/- per KM** on the spot to each Conductor and Driver for operating extra trips.

The IT department shall take up necessary software modifications to pay the amount on the spot to the Conductor / Driver who performed extra KMs.
